

3 WAYS

GUARDIAN® GAW AIR CONDITIONERS
SAVE YOU TIME AND MONEY

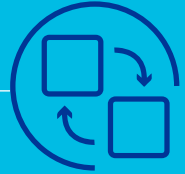

Guardian® GAW Air Conditioners are a cost-effective solution to complete system replacement. Below are three ways these air conditioners are a unique, high-value option.

ONE

Replace only equipment outside the home.

Whether it's due to age, typical wear and tear or unforeseen damage, outdoor units may require replacement before in-home components. Guardian® GAW units are compatible with many existing indoor units.

TWO

A cost-effective option for any location.

GAW air conditioner models meet requirements for installation across the U.S. and Canada. They are also a great choice for multi-family buildings.

THREE

Backed by industry-leading warranties.

All Guardian® GAW Air Conditioners are designed, engineered and assembled in the United States, and come with a full, 5-year parts and compressor warranty administered by Guardian® — with no registration required.
